

Jasmorange

Olfactive Description

Green aldehydic, fresh, fruity, floral

Olfactive Family

Green

Usage Recommendations

Jasmorange is primarily a fresh fruity note which fits with all fruity notes needing a fresh slightly green aspect. In a floral accord Jasmorange adds at low dosage a natural freshness. Jasmorange fits also very well in more elaborated fragrances like chypre or aldehydic perfumes. It is a material which can be used in male and female accords.

Dosage Recommendations

The dosage varies from traces up to 1,0%

Renewable Carbon Content

-
